Ziggie and The Harvest Depot presented those of DC4W who braved the cold and rain a prime rib and scallop dinner feast for our last meal of 2009. What a great time, we broke bread with our friends and toasted 2010 with the model train circling over head.

Travis Lowe led the first run of 2010. The Hangover Run led us to a sled hill already steaming with old friends. Not too much snow as we followed the straight lines above us but before the day was through we each got to test our rig's equipment.
