

Ward and Cherie Crane
Cache Man & Little Wolf

Making the best of retirement Ward and Cherie take serious the art of play. From Colorado rivers to The Columbia wind sailing, rafting, jeeping and hiking is just a scratch on the surface of their schedule. Ward and Cherie work as hard as they play and fairly new members though they are the Trails Task Group is very thankful for their help on many projects. When you have a bite of the salads at any pot-luck-chances are Cherie had her hands at work there too.

Jerry and Christie and Zoe Sleater
Klinger inc.

DC4W's President and Treasure drive a beautiful yellow TJ. The photo to the right is how much fun they have. Jerry and Christie have embraced the club with great enthusiasm since joining and we really do enjoy their participation. Zoe is the girlie girl at each club event. Four years old and going on twenty-four she is a great wheeler in progress. You can find these three at events from Groundhog to Edison Trail Runs. What a team they are.

This Dynamic Duo: Liberty or Keith Anderson and Red Ryder or Ron Houser are two of the Group of *Old Fellows* and their first mates who did Creek n' Trail meals this year in June. Along with them and their mates Jo Ann Anderson and Carol Houser and Dan and Ann Haak of Harney County High Desert fame and me and Randy we single handedly served the hundred and forty or more hungry wheelers in the forests of the Oregon Coastal Mountains. What a team we all made, you would have loved the steaks and the breakfast we really did you all proud. Or am I bragging?
